

Good afternoon Alex.

APPENDIX C3

We have not met but I am attempting to object to the proposed licencing hours to the rear of chicarros high street. The site in question actually backs on to middle row. The stated 0300 7 days a week cut off is far too late, and the size of the street will make it difficult for people to pass through.

My wife and I feel particularly emotional about this a such late night licenses already exist and cause havoc when kick out time comes.

We eagerly await your correspondence.

Kindest regards
