The opening hrs or say the closing hours

would be served at midnight, they
walks still congregate in middle row
functioning meals well after midnight.

Middle Row is a limited walkway only 3' wide
it is a funnel for sound people living in
this area will be kept awake well into early
hours.

If you speak to local Police middle row is out
of sight out of way the risk to damage
to my property is greatly increased.

crowds of people would be almost on
top of each other because of the limited
space. think of the noise if they have been drinking.

There is also no public convenience, you
