## **Treasury Management Prudential Indicators**

#### 1 Capital Expenditure:

The 2011/12 actual capital expenditure and revised estimates of capital expenditure for the current and future years that are recommended for approval are:

|              | 2011/12<br>Actual<br>£000's | Estimate | Estimate | Estimate | Estimate |
|--------------|-----------------------------|----------|----------|----------|----------|
| General Fund | 4,661                       | 6,937    | 3,054    | 3,832    | 3,516    |
| HRA          | 13,281                      | 17,203   | 19,614   | 25,143   | 16,955   |
| Total        | 17,942                      | 24,140   | 22,668   | 28,975   | 20,471   |

Note: the 2012/13 estimate is based for the general fund, on the programme approved at the 11th September Executive, adjusted for LAMS £500k approved at October Full Council. This will differ to the capital report figure being reported to this committee, which will include estimates for slippage and late changes.

#### 2 Ratio of financing costs to net revenue stream:

|                          | 2011/12<br>Actual<br>% |        |        | Estimate | Estimate |
|--------------------------|------------------------|--------|--------|----------|----------|
| Financing costs re       |                        |        |        |          |          |
| General Fund Capital Exp | 0.00%                  | 0.74%  | 4.33%  | 4.97%    | 5.86%    |
| HRA Capital Exp          | 0.00%                  | 18.92% | 18.20% | 17.33%   | 16.55%   |

**General Fund**: Net revenue stream is the RSG, NNDR grant and Council Tax raised for the year. Although forecast interest received (£137k) exceeds forecast interest paid (£110k), there is an MRP cost of £105k.

**HRA**: The net revenue stream is the income from received rents and service charges. The ratio of financing costs to net revenue stream reflects the high level of debt as a result of supported borrowing.

### 3 Net Borrowing requirement

|                               | 2011/12  | 2012/13  | 2013/14  | 2014/15  | 2015/16  |
|-------------------------------|----------|----------|----------|----------|----------|
|                               | Actual   | Estimate | Estimate | Estimate | Estimate |
|                               | £000's   | £000's   | £000's   | £000's   | £000's   |
| Brought forward 1 April       | 1,014    | 205,355  | 214,223  | 215,247  | 218,307  |
| Borrowing - HRA               | 216,915  | 216,915  | 216,915  | 216,915  | 216,915  |
| Borrowing - General Fund      | 0        | 0        | 8,332    | 11,392   | 14,647   |
| Investments                   | (11,560) | (2,692)  | (10,000) | -10,000  | -10,000  |
| Carried forward 31 March      | 205,355  | 214,223  | 215,247  | 218,307  | 206,915  |
| In year borrowing requirement | 199,911  | 0        | 8,332    | 3,060    | 3,255    |

The net borrowing requirement is defined as borrowing less investments. The net borrowing requirement may not, except in the short term, exceed the total capital financing requirement in the preceding year, plus the estimates of any additional financing

### 4 Capital Financing Requirement

|                                     | 2011/12 | 2012/13  | 2013/14  | 2014/15  | 2015/16  |
|-------------------------------------|---------|----------|----------|----------|----------|
|                                     | Actual  | Estimate | Estimate | Estimate | Estimate |
|                                     | £000's  | £000's   | £000's   | £000's   | £000's   |
| Capital Financing Requirement GF    | 6,992   | 10,723   | 13,728   | 15,386   | 16,964   |
| Capital Financing Requirement HRA   | 217,655 | 217,655  | 217,655  | 217,655  | 217,655  |
| Total Capital Financing Requirement | 224,647 | 228,378  | 231,383  | 233,041  | 234,619  |

The Capital Financing Requirement (CFR) reflects the amount of money the Council would need to borrow to fund it's capital programme. This is split between the Housing Revenue Account CFR (HRACFR) and the General Fund CFR (GFCFR).

#### 5 Incremental Impact on Capital Investment Decisions

|   | 2011/12 | 2012/13 | 2013/14 | 2014/15 | 2015/16 |
|---|---------|---------|---------|---------|---------|
|   | £       | £       | £       | £       | £       |
| Increase in Council Tax (band D)          | 0.00    | 3.62    | 19.67   | 26.21   | 33.04   |
| Increase in average housing rent per week | 0.00    | 0.00    | 0.00    | 0.00    | 0.00    |

**General Fund** -This is an indicator of the affordability of the capital programme and its effect on the Council Tax. This indicator shows the expected costs including the updated Capital Strategy being reported to February 2012 Audit Committee.

**HRA** -This is an indicator of the affordability of the capital programme and its effect on the rent payer. As all borrowing is supported this is nil for 2011/12. From 2012/13 under self financing, the cost of borrowing, in terms of interest cost, and any provision for the future reduction in debt liability, is covered by no longer making contributions to CLG in the form of negative subsidy payments. It is therefore assumed that the impact on rents will be neutral.

#### 6 Authorised Limit for external debt

|                             | 2011/12<br>Actual<br>£000's | Estimate | Estimate | Estimate | Estimate |
|-----------------------------|-----------------------------|----------|----------|----------|----------|
| Borrowing - HRA             | 217,685                     | 217,685  | 217,685  | 217,685  | 217,685  |
| Borrowing - General Fund    | 7,800                       | 10,639   | 13,332   | 16,392   | 19,647   |
| Other long term liabilities | 0                           | 0        | 0        | 0        | 0        |
| Total                       | 225,485                     | 228,324  | 231,017  | 234,077  | 237,332  |

The authorised limit in that it is the level up to which the Council may borrow without getting further approval from Council. The Council may need to borrow short term for cash flow purposes, exceeding the operational boundary. The authorised limit allows for £5m headroom, which is in addition to our capital plans.

7 Operational Boundary for external debt

|                             | 2011/12<br>Actual<br>£000's | Estimate | Estimate | Estimate | Estimate |  |
|-----------------------------|-----------------------------|----------|----------|----------|----------|--|
| Borrowing - HRA             | 217,685                     | 217,685  | 217,685  | 217,685  | 217,685  |  |
| Borrowing - General Fund    | 2,800                       | 5,639    | 8,332    | 11,392   | 14,647   |  |
| Other long term liabilities | 0                           | 0        | 0        | 0        | 0        |  |
| Total                       | 220,485                     | 223,324  | 226,017  | 229,077  | 232,332  |  |

The operational boundary differs from the authorised limit in that it is the level up to which the Council expects to have to borrow. The Council may need to borrow short term for cash flow purposes, exceeding the operational boundary. The authorised limit allows for £5m headroom.

## 8 Upper limit for fixed interest rate exposure

This is defined as net principal re fixed rate borrowing less fixed rate investments

|                                     | 2011/12<br>Actual<br>£000's | Estimate | Estimate | Estimate | Estimate |
|-------------------------------------|-----------------------------|----------|----------|----------|----------|
| Fixed Rate Borrowing - HRA          | 217,685                     | 217,685  | 217,685  | 217,685  | 217,685  |
| Fixed Rate Borrowing - General fund | 2,800                       | 5,639    | 8,332    | 11,392   | 14,647   |
| Fixed Rate Investments              | (10,000)                    | (10,000) | (10,000) | (10,000) | (10,000) |
| Net Fixed Rate Borrowing            | 210,485                     | 213,324  | 216,017  | 219,077  | 222,332  |

Please note that the Net Exposure is not itself a limit. As borrowing increases, the net will inevitably rise, by keeping a fixed investments constant. It is conceivable that we would have no fixed investments at a point in time, as part of cash flow management. It is therefore the separate Borrowing and Investment entries

## 9 Upper limit for variable interest rate exposure

This is defined as net principal re variable rate borrowing less variable rate investments

|  | 2011/12<br>Actual<br>£000's | Estimate | Estimate | Estimate | Estimate |
|--|-----------------------------|----------|----------|----------|----------|
| Variable rate borrowing - HRA          | 200,681                     | 200,681  | 200,681  | 200,681  | 200,681  |
| Variable rate borrowing - General Fund | 2,800                       | 5,639    | 8,332    | 11,392   | 14,647   |
| Variable rate investments              | (11,560)                    | (35,000) | (35,000) | (35,000) | (35,000) |
| Net Variable Rate Borrowing            | 191,921                     | 171,320  | 174,013  | 177,073  | 180,328  |

Positive figures show that borrowing exceeds investment levels. It is the individual borrowing and investment limit, not the net variable rate borrowing which requires approval. Given the more bouyant balances during 2012/13, and current markets, it would be prudent to revise the variable limit from £25M to £35M.

# 10 Upper limit for total principal sums invested for over 364 days

|                                 | 2011/12 | 2012/13  | 2013/14  | 2014/15  | 2015/16  |
|---------------------------------|---------|----------|----------|----------|----------|
|                                 | Actual  | Estimate | Estimate | Estimate | Estimate |
|                                 | £000's  | £000's   | £000's   | £000's   | £000's   |
| Sums invested for over 364 days | 2,000   | 2,000    | 2,000    | 2,000    | 2,000    |

R:\Council December 2012\[2012December05-Item12-AppendixA.xls]PI - Jan 12 - 12-13 Strategy
