Re Unit 5, The Plaza, Town Centre, Stevenage, SG1 1PF, the application for a late night entertainment venue.

We object to the application being granted on the following grounds:

- 1) We have serious concerns over noise omitting from the premises into the early hours. When they were previously occupied our residents were constantly woken from the noise levels in the street.
- 2) When the premises were open previously our planting and signs were damaged on a number of occasions, which subsequently stopped when the said premises were closed down. We must assume this was from the late night revellers leaving the premises.

With these objections mentioned, we feel this application if granted would direct effect on our business and the disturbance of our guests.

Yours sincerely,

Acting General Manager
