## Licensing Objections

Which of the four licensing Objectives does your representation relate to?	Yes Or No	<b>Evidence supporting representation or reason for representation.</b> <b>Please use continuation sheet as required</b>
To prevent crime and disorder	Yes	<p>Please refer to the analysis report (attached), which indicates number of incidents and offences that have occurred at, or directly outside Liquid &amp; Envy between 01/01/2007 and 18/06/2007, associated with crime and disorder.</p> <p>There have been a total of 231 offences on Kings Way between the above dates, of which 79 are directly linked to Liquid &amp; Envy, which is a rate of 34.1%. This is a considerably high percentage rate for these premises over a 5 ½ month period.</p> <p>The report demonstrates that the majority of offences at Liquid &amp; Envy have taken place from 11pm on a Saturday through to 2am on a Sunday morning, with a significant increase at 1am.</p> <p>Please also refer to the incident breakdown (attached) for the 5 ½ months (January 2007 to June 2007), which highlights significant incidents of concern.</p> <p>There are concerns with regard to Liquid &amp; Envy's proposed application of an extension as follows:</p> <ul style="list-style-type: none"> <li>• Alcohol hours on a Sunday from 1.30am to 2.30am and</li> <li>• Closing hours on a Sunday from 2am to 3am.</li> </ul> <p>Concerns are that the continued pattern of crime and disorder offences will continue if the premises are allowed to remain open beyond 2am on a Sunday. More crimes are consistently recorded in and around these premises than any other premises on the Leisure Park. The highest offence being possession of controlled drugs (cocaine). There is also a significant increase in 'other wounding' after 1am. At this present time these are the only premises on the Leisure Park that close at 3.30am between Monday &amp; Saturday and the only one until recently that was open until 2am on a Sunday.</p> <p>At this present time the Leisure Park accommodate a taxi marshalling system on a Friday &amp; Saturday night, however there is none on a Sunday night. On average there are 15-20 taxis on a Sunday. There are concerns that if these premises were permitted to be granted to extend hours on the Sunday then how would these premises make provisions for their clientele to disperse from the Leisure Park as quickly as possible, in order to ensure public safety and to prevent public nuisance.</p> <p>These premises are currently highlighted fortnightly as a number 1 hotspot premises due to the level of crime and disorder mainly on a Friday, Saturday and early hours of Sunday mornings. It can be confirmed that the premises have been on an action plan since the end of December 2006 to the present time, where the premises have worked</p>

		in partnership with police during this period in order to try and minimise level of crime and disorder. With the action plan in place things have improved but level of crime and disorder still continues. Police are concerned that incidents will become more frequent and create additional crime and disorder, if these premises are granted this variation.
<b>Public safety</b>	Yes	As above
<b>To prevent public nuisance</b>	Yes	As above
<b>To protect children from harm</b>	No	

<b>Suggested conditions that could be added to the licence to remedy your representation or other suggestions you would like the Licensing Sub Committee to take into account. Please use separate sheets where necessary and refer to checklist.</b>

## ***Eastern Area Intelligence Unit Analysis***

### **Incidents & Offences 01/01/2007 to 18/06/2007 Liquid and Envy, Stevenage Leisure Park**

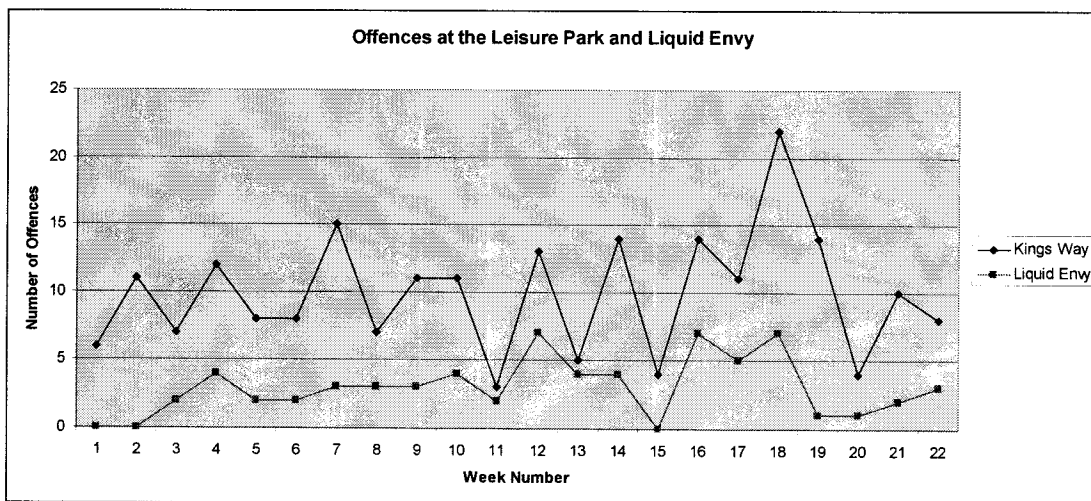

*(All figures are taken from NMIS and should be treated with care due to the differing crime and incident class recordings from that of CIS/OASIS. Figures are as accurate as possible but there may be occasions where the pub may not be specifically mentioned, but an incident/offence may have occurred here or a street offence may have occurred that does not fall into a specific address. For this reason, the area surrounding the Leisure Park has been included.*

The following document shows the number of incidents and offences that have occurred at, or directly outside Liquid and Envy between the 01/01/2007 and 18/06/2007. Incidents/offences include Criminal Damage, Common Assault, Fights, Drunken Behaviour, Anti Social Behaviour and Disturbance.

#### **Offences**

There have been a total of 231 offences on Kings Way between the aforementioned dates. Of these 34.1% (n=79) were directly linked by premises name to Liquid Envy.

#### **Graph to show Offences between 01/01/2007 and 01/06/2007**

The graph above shows offences by week. Offences have remained relatively stable with peaks identified at Liquid Envy during the Easter period and the May bank holiday weekends when more people are expected to be socialising at this location. Offences at the Leisure Park and Town Centre would appear to have staid relatively stable since Operation Sword was implemented in July 2005. This provides visible and positive policing by reducing and confronting Crime and Disorder at the Leisure Park.

Whilst this has assisted in reducing the number of offences at the Leisure Park it is important resources are not stretched when premises close.

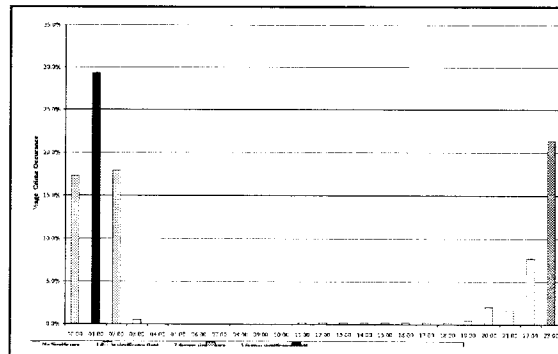

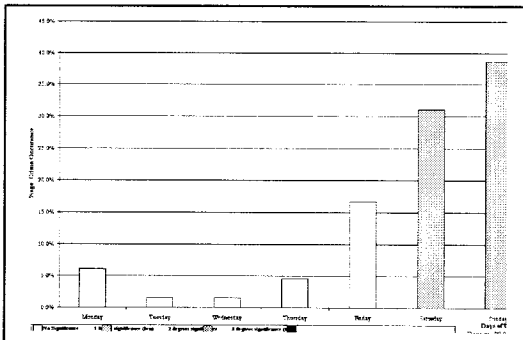

**Pivot table of offence type 01/01/2007 to 18/06/2007**

OFFENCE TYPE	LIQUID ENVY BEFORE 01:00	LIQUID ENVY AFTER 01:00
Possession Of Controlled Drugs	16	15
Other Wounding	6	10
Other Theft	6	2
Common Assault	4	3
Theft From The Person	7	0
Other Criminal Damage	0	2
Damage to a Building other than a Dwell	0	1
Harassment	0	1
Other Forgery Etc.	1	0
Sexual Assault On A Female Aged 13 And Over	0	1

The graphs below show the temporal analysis of offences at Liquid Envy. It is interesting to note that peaks are identified towards the end of the night when premises are beginning to quieten down and people vacate the premises. There is a significant peak between 01:00 and 02:00 with a slightly smaller peak between the hours of 23:00 and midnight. The peak days show very little significance however Saturdays and Sundays are slightly higher which can be expected due to this being some of the peak days for Liquid Envy.

**Weekday count: Offences between 01/01/2007 & 18/06/2007**

**Time Chart: Offences between 01/01/2007 & 18/06/2007**

The highest offence type across the Leisure Park was Other Wounding with 66 offences, 16 of which were directly linked to Liquid Envy. Temporal analysis revealed that the peak time for these offences were between the hours of midnight and 03:00 with 3 degrees of significance. Peak days were Sundays. It must be remembered that the majority of these were from close of business on a Saturday night.

**Incidents**

There have been a total of 49 incidents of anti social behaviour in the aforementioned area between 01/01/2007 and 18/06/2007. 18.4% (9) of which were recorded as occurring on Liquid Envy's property. However, Incident levels have remained low at Liquid Envy since the start of the year. The success of Operation Sword evident again with such low levels of incidents recorded at the Leisure Park.

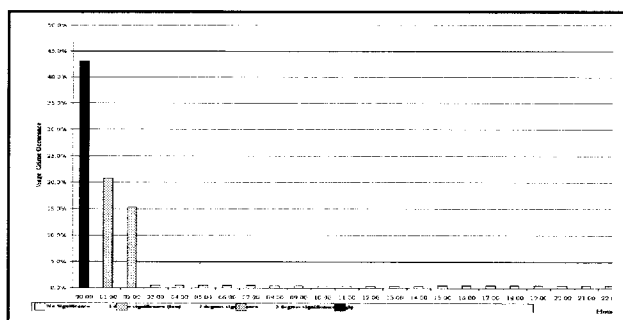

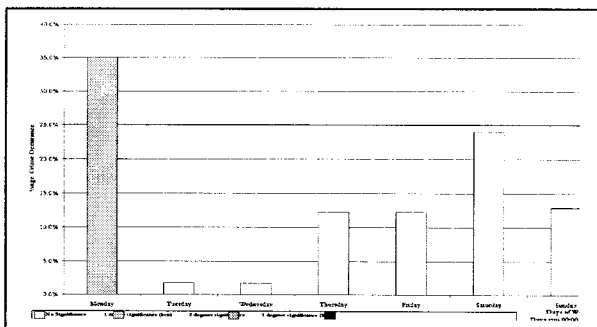

The following table shows the number and type of incidents that occurred at Liquid Envy compared with the Leisure Park it's self. 7 of the 8 Rowdy/Nuisance incidents occurred after midnight.

Incident Type	Kings Way	Liquid Envy
Rowdy/Nuisance - Rowdy and Inconsiderate	35	8
Malicious Communications	4	0
Vehicle Related Nuisance/Inappropriate Vehicle Use	4	0
Abandoned Vehicles (Not Stolen Or Causing Obstruction)	3	0
Hoax Calls to Emergency Services	2	1
Animal Problems	1	0

The graphs below show the temporal analysis of incidents at Liquid Envy since the start of the year. The peak day for incidents although the significance is low identifies Mondays, when analysing in more detail this would appear to be in the early hours as the premises is closing after Sundays business. In addition Time analysis suggested more incidents occurred between midnight and 03:00. (it must be remembered a small sample of 9 incidents has been used).

**Weekday count: Incidents between 01/01/2007 & 18/06/2007**

**Time Chart: Incidents between 01/01/2007 & 18/06/2007**

**Summary**

- 34.1% of all offences at Kings Way between 01/01/2007 and 01/06/2007 were directly linked to Liquid Envy
- Offence levels peaked slightly at key times such as Bank Holidays and Easter Holidays.
- Offences increased on Saturdays and Sundays in the early hours leading to the close of business.
- The key offence types at the location were Possession of Drugs followed by Other Wounding.
- Levels of Anti Social Behaviour (non-crimes) remain low with only nine incidents reported.
- The majority of these incidents were reported after midnight.
