

Meeting:	Planning and Development Committee	Agenda Item:
Date:	29 October 2024	
Author:	Lewis McGann	
Lead Officer:	Zayd Al-Jawad	
Contact Officer:	Lewis McGann	

Application No :	24/00627/FP
Location :	Cranbourne Court, Ingleside Drive, Stevenage
Proposal :	Installation of perimeter edge guard railing to flat roof areas.
Drawing Nos.:	CD-ADC392-1-14CC-100_P1; CD-ADC392-1-14CC-101_P1; CD-ADC392-1-14CC-102_P1; CD-ADC392-1-14CC-200_P1; CD-ADC392-1-14CC-201_P1; CD-ADC392-1-14CC-202_P2; CD-ADC392-1-14CC-203_P2;
Applicant :	Mulalley & Company Ltd
Date Valid:	03 September 2024
Recommendation :	GRANT PLANNING PERMISSION

1. SITE DESCRIPTION

- 1.1. The application site comprises a three storey, staggered terrace block of fourteen flats located on the northern side of the road at the end of Ingleside Drive, adjacent to the north-west of St

John Henry Newman School. Directly on the opposite side of the road to the south-west lies Fovant Court.

- 1.2. The block of flats in question is divided into five distinct main buildings, all of which are constructed of a red brick course with elements of white and some brown horizontal cladding. Each main building is roofed with a flat roof and is fitted with white uPVC windows with and steel external doors. Twelve of the properties feature a balcony or ground floor patio on their south-eastern elevation with the remaining two properties featuring a balcony on their south-western elevation and these are all finished with black metal balustrading. The north-eastern-most building of the block of flats contains a row of garages at ground floor level which form part of a larger area of concealed residential garages to the north-east.
- 1.3. The surrounding area is characterised by a mixture of flat blocks, terraced and semi-detached housing, typically laid out in staggered rows that are generally of a similar age and style to the application site.

2. RELEVANT PLANNING HISTORY

- 2.1 Planning permission 24/00224/FP - Replacement cladding, communal entrance doors and windows to flats and communal areas, together with replacement flat roof covering, fascias, gutters and downpipes and replacement balustrading to balconies and ground floor patios. Granted permission in May 2024.

3. THE CURRENT APPLICATION

- 3.1 This application seeks planning permission for the following works:
 - New freestanding galvanised steel handrail perimeter safety guarding with counterweights.
- 3.2 This application comes before the Planning and Development Committee because the landowner is Stevenage Borough Council. Therefore, in line with the Council's constitution, this application is being referred to the aforementioned committee for its decision.

4. PUBLIC REPRESENTATIONS

- 4.1 Following notification of the application via letters to neighbouring properties and the erection of a site notice, no comments were received.

5. CONSULTATIONS

- 5.1. No statutory consultations were necessary for this application.

6. RELEVANT PLANNING POLICIES

6.1. Background to the Development Plan

- 6.1.1 Section 38(6) of the Planning and Compulsory Purchase Act 2004 provides that the decision on the planning application should be in accordance with the development plan unless material considerations indicate otherwise. For Stevenage the statutory development plan comprises:

- The Stevenage Borough Council Local Plan 2011-2031

- Hertfordshire Waste Development Framework 2012 and Hertfordshire Waste Site Allocations Development Plan Document (adopted 2012 and 2014); and
- Hertfordshire Minerals Local Plan 2002 – 2016 (adopted 2007).

6.2 Central Government Advice

6.2.1 A revised National Planning Policy Framework (NPPF) was published in December 2023. This made significant changes to the September 2023 version and revised policy with respect to the following:

- maintaining supply and delivery of housing.
- making effective use of land with the allowance of mansard roof extensions to suitable properties.
- significant uplift in the average density of residential development can be seen as being inappropriate if the built form is out of character.
- strengthening policies around achieving well-designed and beautiful places.
- requirement for councils to prepare Local Design Codes.
- no longer a requirement to review or change Green Belt boundaries when plans are being prepared or updated.
- local planning authorities should now give significant weight to the need to support energy efficiency and low carbon heating improvements to existing buildings, both domestic and non-domestic.
- change to policies on Biodiversity.

6.2.2 The Council are content that the policies in the Local Plan are in conformity with the revised NPPF and that the Local Plan should be considered up to date for the purpose of determining planning applications. The NPPF provides that proposals which accord with an up-to-date development plan should be approved without delay (para.11) and that where a planning application conflicts with an up-to-date development plan, permission should not usually be granted (para.12). This indicates the weight which should be given to an up-to-date development plan, reflecting the requirements of section 38(6) of the 2004 Act.

6.2.3 In order for a Local Plan to be effective, they need to be kept up-to-date. The NPPF states policies in local plans should be reviewed to assess whether they need updating at least once every 5 years. This is reflected under Regulation 10A of the Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended) which sets out local planning authorities must review local plans every 5 years from their adoption to ensure that policies remain relevant and effectively address the needs of the local community.

6.2.4 The Stevenage Borough Local Plan (2011 – 2031) was formally adopted by the Council on the 22nd May 2019. As of the 22nd May 2024, the adopted Local Plan is 5 years old and as such, is deemed to be out-of-date. This means that the policies contained in the local plan are deemed to have limited weight with greater weight applied to the framework of policies in the NPPF.

6.2.5 The Council is undertaking a review of the Local Plan and is undertaking a Regulation 18 consultation. Following this consultation period, the Council will seek to amend the Local Plan and then undertake a Regulation 19 consultation in the Winter of 2024. This will be where a further opportunity for representations can be made on the amendments to the Local Plan before it is submitted for examination to a planning inspector. The Council intends to submit the Local Plan for Examination in Public (EiP) in early 2025 with the aim to adopt an updated Local Plan by June 2025. As the updated Local Plan progresses through the relevant stages outlined above, more weight can be applied to the respective policies until its formal adoption by the Council.

6.3 Planning Practice Guidance

6.3.1 The PPG contains guidance supplementing the NPPF and with which Members are fully familiar. The PPG is a material consideration to be taken into account together with the National Design Guide (2019) which has the same status as the PPG.

6.4 National Design Guide

6.4.1 The National Design Guide 2019 is Government guidance on the characteristics of well-designed places and demonstrates what good design means in practice. It has the same status as the PPG and should similarly be taken into account when determining planning applications.

6.5 Adopted Local Plan (2019)

6.5.1 The policies set out below are relevant in the determination of this application:

Policy SP8: Good design;
Policy GD1: High quality design;

6.6 Local Plan Partial Review (2024)

6.6.1 The council is currently carrying out a partial review and update of the local plan. On 5 July 2024, a schedule of proposed changes was published for the first stage of public consultation under regulation 18 of the Town and Country Planning (Local Planning) (England) Regulations 2012 (as amended). Paragraph 48 of the NPPF 2023 states that local planning authorities may give weight to relevant policies in emerging plans according to:

- a) the stage of preparation of the emerging plan (the more advanced its preparation, the greater the weight that may be given);
- b) the extent to which there are unresolved objections to relevant policies (the less significant the unresolved objections, the greater the weight that may be given); and
- c) the degree of consistency of the relevant policies in the emerging plan to this Framework (the closer the policies in the emerging plan to the policies in the Framework, the greater the weight that may be given).

Where there are emerging policies which are relevant to the application, these will be highlighted in the main body of this report.

6.7 Supplementary Planning Documents

Stevenage Design Guide Supplementary Planning Document January 2023.

6.8 Community Infrastructure Levy

Stevenage Borough Council adopted a Community Infrastructure Levy Charging Schedule in 2020. This allows the Council to collect a levy to fund infrastructure projects based on the type, location and floorspace of a development.

7. APPRAISAL

7.1.1 The only issue in the assessment of the application is the impact on the character and appearance of the area. There are no changes to the number of units within the building and no enlargement of the buildings or number and locations of fenestrations so there will be no change to the car parking provision nor any changes to existing impacts on neighbouring properties.

7.1.2 Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that all planning applications must be determined in accordance with the Development Plan unless material considerations indicate otherwise.

7.2 Impact on the Character and Appearance of the Area

7.2.1 In terms of design, paragraph 131 of the NPPF (2023) states that achieving high quality, beautiful and sustainable buildings and places is fundamental to the planning and development process and that good design is a key aspect of sustainable development. Further, paragraph 135 of the NPPF (2023) stipulates that planning decisions should ensure developments function well and adds to the overall quality of the area, not just in the short term but over the lifetime of the development. It also sets out that developments should be visually attractive as a result of good architecture, layout and appropriate and effective landscaping is sympathetic to local character and history, including the surrounding built environment and landscape setting.

7.2.2 Paragraph 139 of the NPPF (2023) states that permission should be refused especially where it fails to reflect local design policies and government guidance on design (such as the National Design Guide), taking into account any local design guidance and supplementary planning documents. Conversely, significant weight be given to:

- a) development which reflects local design policies and government guidance on design, taking into account any local design guidance and supplementary planning documents such as design guides and codes; and/or
- b) outstanding or innovative designs which promote high levels of sustainability, or help raise the standard of design more generally in an area, so long as the fit in with the overall form and layout of their surroundings.

7.2.3 Policy GD1 of the Local Plan (2019) generally requires all forms of development to meet a high standard of design which includes form of built development, elevational treatment and materials along with how the development would integrate with the urban fabric, its relationship between buildings, landscape design and relevant aspects of sustainable design.

7.2.4 Policy SP8 of the adopted Local Plan (2019) requires new development to achieve the highest standards of design and sustainability which can deliver substantial improvements to the image and quality of the towns' built fabric. Policy GD1 of the Local Plan generally requires all forms of development to meet a high standard of design which includes form of built development, elevational treatment and materials along with how the development would integrate with the urban fabric, its relationship between buildings, landscape design and relevant aspects of sustainable design.

7.2.5 The National Design Guide (2019) which was published by National Government is a material consideration in the determination of planning applications. It sets out that Buildings are an important component of places and proposals for built development are a focus of the development management system. However, good design involves careful attention to other important components of places. These include:

- the context for places and buildings;
- hard and soft landscape;
- technical infrastructure – transport, utilities, services such as drainage; and
- social infrastructure – social, commercial, leisure uses and activities.

7.2.6 A well-designed place is unlikely to be achieved by focusing only on the appearance, materials and detailing of buildings. It comes about through making the right choices at all levels, including:

- the layout;
- the form and scale of buildings;

- their appearance;
- landscape;
- materials; and
- their detailing.

7.2.7 The Guide further iterates that all developments are made up of these components put together in a particular way. As such, the choices made in the design process contribute towards achieving the ten characteristics and shape the character of a place. For reference, these ten characteristics are as follows:-

- Context – enhances the surroundings;
- Identity – attractive and distinctive;
- Built form – a coherent pattern of built form;
- Movement – accessible and easy to move around;
- Nature – enhanced and optimised;
- Public spaces – safe, social and inclusive;
- Uses – mixed and integrated;
- Homes and buildings – functional, healthy and sustainable;
- Resources – efficient and resilient;
- Lifespan – made to last.

7.2.8 Paragraph 40 of the National Design Guide states that well-designed places are:

- Based on a sound understanding of the features of the site and the surrounding context, using baseline studies as a starting point for design;
- Integrated into their surroundings so they relate well to them;
- Influenced by and influence their context positively; and
- Responsive to local history, culture and heritage.

7.2.9 The Council recently adopted an updated Design Guide SPD (Jan 2023). An understanding and analysis of the original New Town design concepts led to some key issues becoming apparent. These have been used as key themes, which run throughout the entirety of this guidance. Considering these concepts at all stages of the development process will provide a good basis for the creation of a successful place; based on the recognised principles of urban design, but also building on the existing fabric of the town without taking away from Stevenage's history as Britain's first Mark One New Town. The themes have been identified as follows:

- Sustainability – incorporate principles of sustainable development from a town-wide perspective to measures incorporated into an individual property;
- Increasing densities – encourage high densities in accessible locations;
- Respecting existing characteristics – respect local characteristics and preserve and enhance existing features, where appropriate;
- Legibility – provide landmark developments at nodal points;
- Design innovation – showcase Stevenage as an example of high-quality design, creating safer places through urban design techniques.

7.2.10 The proposed works would involve the installation of perimeter edge guard railings to the flat roof area, which would be in galvanised steel. The railing would be 1.1m in height. The works would be in addition to the external refurbishment works granted permission in May 2024. Whilst the railing would be partially visible on the roof, it is considered that it would have a very limited impact on the character and appearance of the wider area.

7.2.11 Having regard to the above, it is considered that the proposed development would have an acceptable impact on the character and appearance of the area. In this respect, the proposal accords with Policies SP8 and GD1 of the Local Plan 2019, which together require development to be of a high quality and sympathetic to its surroundings.

7.3 Biodiversity Net Gain

7.3.1 Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value. This is subject to exemptions, an exemption applies in relation to planning permission for a development which is below the de minimis threshold, meaning development which:

- does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and
- impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat (as defined in the statutory metric).

Applicants for planning permission are required to make a statement as to whether the biodiversity gain condition will apply if permission is granted.

7.3.2 The applicant has confirmed in their statement that if granted planning permission, the general Biodiversity Net Gain Condition (as set out in Paragraph 13 of Schedule of the Town and Country Planning Act (as amended) does not apply. This is because the development proposal is below the threshold which will not have an impact on a priority habitat, and it will impact less than 25sqm of onsite habitat and less than 5m of linear hedgerow. This is because the development is limited to the existing footprint of the building only.

7.4 Other Matters

Equality, Diversity and Human Rights

7.4.1 Consideration has been given to Articles 1 and 8 of the First Protocol of the European Convention on Human Rights. It is not considered that the decision would result in a violation of any person's rights under the Convention.

7.4.2 When considering proposals placed before Members it is important that they are fully aware of and have themselves rigorously considered the equalities implications of the decision that they are taking.

7.4.3 Rigorous consideration will ensure that proper appreciation of any potential impact of that decision on the Council's obligations under the Public Sector Equalities Duty. As a minimum this requires decision makers to read and carefully consider the content of any Equalities Impact Assessment (EqIA) produced by officers.

7.4.4 The Equalities Act 2010 requires the Council when exercising its functions to have due regard to the need to (a) eliminate discrimination, harassment, victimisation and other conduct prohibited under the Act; (b) advance equality of opportunity between persons who share a relevant protected characteristic and persons who do not share it and (c) foster good relations between persons who share protected characteristics under the Equality Act and persons who do not share it. The protected characteristics under the Equality Act are: age; disability; gender reassignment; marriage and civil partnership; pregnancy and maternity; race; religion and belief; sex and sexual orientation.

7.4.5 Measures will be put in place during the construction phase of the development to minimise harm to neighbouring properties arising from noise and dust. Accordingly, it is not considered that the development would contravene the Human Rights Act by way of preventing or hindering the right to peaceful enjoyment of a home.

- 7.4.6 It is considered that the decision has had regard to this duty. The development would not conflict with either Stevenage Borough Council's Equality Policy or the commitments set out in our Equality Objectives and would support the Council in meeting its statutory equality responsibilities. This is because the proposed development will not impact upon person who have protected characteristics.

8. CONCLUSIONS

- 8.1 The proposal is considered to be in accordance with the development plan and in the absence of any other material considerations which indicate that permission should be refused, it is recommended that planning permission be granted.

9. RECOMMENDATIONS

- 9.1 That planning permission be GRANTED subject to the following conditions and informatives:
- 1 The development hereby permitted shall be carried out in accordance with the following approved plans: CD-ADC392-1-14CC-100_P1; CD-ADC392-1-14CC-101_P1; CD-ADC392-1-14CC-102_P1; CD-ADC392-1-14CC-200_P1; CD-ADC392-1-14CC-201_P1; CD-ADC392-1-14CC-202_P2; CD-ADC392-1-14CC-203_P2;
REASON:- For the avoidance of doubt and in the interests of proper planning
 - 2 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.
REASON:- To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).
 - 3 The materials to be used in the development hereby permitted shall be as per the approved plans and associated documents to the satisfaction of the Local Planning Authority.
REASON:- To ensure the development has an acceptable appearance.

The Council has acted Pro-Actively for the following reason:-

- 1 Planning permission has been granted for this proposal. Discussion with the applicant to seek an acceptable solution was not necessary in this instance. The Council has therefore acted pro-actively in line with the requirements of the National Planning Policy Framework (paragraph 38) and in accordance with the Town and Country Planning (Development Management Procedure) (England) Order 2015.

INFORMATIVE

- 1 **Public Information on Planning Applications**
Warning: all information provided on your planning application is now publicly available. Individuals and organisations offering their services may contact you. The Council does not endorse or approve any builders, surveyors, trades persons or other supplier, and advises householders to obtain quotes/references, and check the legitimacy of any contractor who contacts them before making payment.
- 2 **Community Infrastructure Levy**
Stevenage Borough Council adopted a Community Infrastructure Levy (CIL) Charging Schedule at Full Council on 27 January 2020 and started implementing CIL on 01 April 2020.

This application may be liable for CIL payments and you are advised to contact the CIL Team for clarification with regard to this. If your development is CIL liable, even if you are granted an exemption from the levy, please be advised that it is a requirement under Regulation 67 of The Community Infrastructure Levy Regulations 2010 (as amended) that CIL Form 6 (Commencement Notice) must be completed, returned and acknowledged by Stevenage Borough Council before building works start. Failure to do so will mean you risk losing the right to payment by instalments and a surcharge will be imposed. NB, please note that a Commencement Notice is not required for residential extensions if relief has been granted.

Stevenage's adopted CIL Charging Schedule and further details of CIL can be found on the Council's webpages at www.stevenage.gov.uk/CIL or by contacting the Council's CIL Team at CIL@Stevenage.gov.uk.

3 **Building Regulations**

To obtain advice regarding current Building Regulations please contact Hertfordshire Building Control Ltd. by emailing us at building.control@hertfordshirebc.co.uk or phoning us on 01438 879990.

To make a building regulations application please apply through our website portal at <https://www.hertfordshirebc.co.uk/contact-us/> payment can be made online or by phoning the above number after the application has been uploaded. Please phone Hertfordshire Building Control for fees guidance on 01438 879990.

Hertfordshire Building Control can also be contacted by post at Hertfordshire Building Control Ltd, 4th Floor, Campus West, Welwyn Garden City, Hertfordshire, AL8 6BX.

Once a building regulations application has been deposited with relevant drawings and fee building work may commence. You will be advised in their acknowledgement letter of the work stages we need to inspect but in most instances these are usually:

- Excavation for foundations
- Damp proof course
- Concrete oversite
- Insulation
- Drains (when laid or tested)
- Floor and Roof construction
- Work relating to fire safety
- Work affecting access and facilities for disabled people
- Completion

Please phone Hertfordshire Building Control on 01438 879990 before 10.00am to ensure a same day inspection (Mon - Fri).

4 **Party Wall etc. Act 1996**

Any work that affects a party wall, including foundations dug within 3.0m of a neighbouring building, may be controllable under the Act and may require approval from the adjoining owner(s). Party Wall Act matters are always civil matters and it is neither Stevenage Borough Council's nor Hertfordshire Building Control Ltd's remit to control or enforce Party Wall act matters. Please refer to the Government's explanatory booklet The Party Wall etc. Act 1996, a copy of which is available online at <https://www.gov.uk/government/publications/the-party-wall-etc-act-1996-revised-explanatory-booklet>.

10. BACKGROUND DOCUMENTS

1. The application file, forms, plans and supporting documents having the reference number relating to this item.
2. Stevenage Borough Council Supplementary Planning Documents – Stevenage Design Guide adopted January 2023.
3. Stevenage Borough Local Plan 2011 – 2031 adopted 2019.
4. Responses to consultations with statutory undertakers and other interested parties referred to in this report.
5. Central Government advice contained in the National Planning Policy Framework December 2023 and National Planning Practice Guidance.
